

# Phone Men Back on Job, Tackling Backlog of Work

BY BARRY PETERSEN

Intensive Illinois Bell telephone workers may find themselves back on the line as early as this week, according to a statement released by management workers who filed a suit with the federal court in Chicago on Tuesday.

Workers of Electrical Union 177 strike of 17 days and yesterday, "but," said a union official for Local 336 which includes workers in the Illinois Telephone and Air Conditioning Co., "we'll probably do it in the next few weeks and we discovered a strike ending on the same day."

HE SAID repeated union work is company policy, and "if it is not 100 per cent correct, we repeat it."

"We're not going out of the house to do the work done by management personnel," he said.

Asked about the quality of installation work done by management workers, Petersen said "some of it has been below standard."

Joseph Callahan, a com-

munications service manager and a laborer for the 18,000, said many union men are not qualified with the contract agreement, but that they would return to work when they are all satisfied.

"It's the only fair thing to do to the workers who are employed by us," he said.

"I SPEAK most of the work in the work making a complaint laboring. I was mak-

ing \$4.45 an hour, and under the new contract, I'll be paid 10 cents less than that after the strike ends."

Workers said a survey of men who work in the shop showed that only five of the 30 union workers were making more as their temporary jobs under the new contract.

"Those few averaged from 40 cents to \$2.40 an hour more, but the rest were losing."

He said striking men had filed a suit against the company and had helped an anti-labor strike.

of job," he said. "Because we're not a job that we can find it."

Local 336 president, William Bartel, said he felt most of the men in the striking union would be glad to be back at their regular jobs.

"I'm not a planner. There is a lot of work on the picket line and a lot of work in the shop."

"I'm not a planner. There is a lot of work on the picket line and a lot of work in the shop."

They were working at installing new lines and were not working on the backlog of work that they had piled up on their regular jobs.

"I'm not a planner. There is a lot of work on the picket line and a lot of work in the shop."

# Cookies and Rules Better at Arlington High, But Transfer Students Encounter Problems

By MARIANNE BROWN

The peanut butter cookies are a lot better," said senior Earl Dunn from Indiana, smiling away.

He was one of the transfer students who attended last week's party for newcomers at Arlington High School—a party sponsored by Triple-S, a girls' service club.

Butler Joyce Nowack, president of Triple-S, headed the welcoming committee.

Speaking to the transfer students were Bruno Wares, Arlington High principal; W. John Rowe and William Powell, assistant principals; and Vincent Alquist, student activities director.

They told the students that all problems could be solved with the help of the staff, and encouraged the transfer students to come in for information.

One boy said that he would have liked to know about the

help sooner, because he really could have used them.

Why do the transfers like Arlington High School? Policies and regulations are a lot easier here.

Senior Jan Laird, from Freeport, Ill., remembers, "In Freeport, boys couldn't wear long sideburns, and girls couldn't wear short skirts."

Cafeteria food here got good ratings. Stephanie Mel Smith from Flensburg, and Ted Kasmann from Chicago both liked the food choice. Ted said, "The food is a lot better, a lot cheaper, and you get a lot more."

SOME of the newcomers expressed the feeling that it would be hard to get into the swing of things, but presidents from various clubs assured them that joining organizations would be a help.

Two Arlington old-timers, Gary Drake, president of A-Club and Greg Shaffer, president of Key Club, a boys' service group told the activities their organizations sponsored.

The sale of Arlington High 2,100-student, seemed to amaze many of the transfers. It also created new problems for incoming students.

Jim Burke, a junior from Indiana, said, "I really lost it with all these people. My other school had around 600 students, so you can see the changes I'm going to have to make."

When Arlington High was built in 1922, architects placed odd-numbered rooms on the

transfer students who report room 108 to be the best door to room 109 have problems.

Foreign exchange student Lourdes Barea, from Peru, finds it impossible to get around the confusing hall without carrying a map.

CONSEQUENTLY,

Answer on Comic Page

# Stadium Lights Dedicated With 19-13 Wildcat Victory

BY DAVID GARLAND

Wesley's Wildcats played their new stadium lighting in a small but fast Palatine game.

team 19-13 in a six-way battle. The Wildcats had to battle back from a 13-0 deficit and score a touchdown with 0:59 left before the clock in the fourth quarter to pull out the win.

The first quarter started off with the Pirates controlling the ball for the first four minutes without getting anywhere. Then Wheeling took over and moved the ball 23 yards on eight plays to the

Wildcat 48-yard line before Cat quarterback Ron King fumbled a handoff which was scooped up by Palatine's Larry Hoffman and returned to the Cat 40. On the next play, Palatine running back Tom Patch went 40 yards on the first play from scrimmage for the Pirates' first touchdown of the night.

**PATCH GAVE** the Wildcats first lead for the entire first half by picking up good yardage taking pitch out as a man-in-motion. However, a man-in-motion wasn't the only problem the Cat had in the first half. King had his first pass intercepted the next time he "Cats" touched the ball.

Palatine safety-quarterback Phil Dobashnik picked off King's pass at the Wheeling 32 yard line, returned it to the 30, then tossed a 30 yard TD pass to tight end Dave Haskab, on the first play from scrimmage. At Bankerfield made good his second extra-point, bringing the Palatine lead to 13-0.

Things looked a little bleak for the Wildcats in the last four minutes of the first half, but they were able to wheeling back to score on a series of eight plays. Halfback

Jack Bastable started off by taking the Pirates kickoff at the 10 yard line and returning it to the 34 yard line. King called on Bastable again, as the 190-pound running back smacked up the middle for an eight yard gain. Steve Oakley picked up those yards and the Cat first down on an eight play.

**THEN BASTABLE** went back to the opposite side for three more yards. King came back on the next play by hitting Oakley seven yards. Then, on a second down, Wheeling took over. Wheeling took drive after a King pass was picked off by the Pirates 48 yards.

King put the Cat back in the ball game in the second quarter as he hit Marty Crain on a down-and-out pass pattern for a 47 yard touchdown pass. Bastable made good on the extra point.

The Wildcat defense didn't give the Pirates anything in the second half. The Pirates were able to get the ball, Wheeling put up a solid wild with Chris Gragg caught in the end and knocked down a Donahue pass on third and 19, but they were unable to score before the first quarter.

**A solid passing game** going. During the second quarter, the Cat defense carried the ball. The offense got two good drives going, but couldn't add any more numbers in the scoreboard.

The first time the Cat offense got the ball it was Bastable, Oakley and King as they hit the ball 16 yards in eight plays before punting on a fourth down with five yards to go.

**THE SECOND TIME** they got the ball, King tried to go with a 26 yard pass to the sideline for the first time. The pass was wide, leaving the other five yards needed for a first down. But the pass was picked off by the Pirates 48 yards.

Wheeling got the ball twice more before the halfline pass couldn't do much. The only good passing was a three yard pass completion from King to Bastable on a third and 19 call, after King had been dumped by Palatine for two yard loss.

The Cats got the ball back with 0:12 showing on the clock as Steve Klopch picked off a Donahue pass at the Wheeling 47-yard line. However, they didn't have time to run anything before the game, leaving the score at 19-13.

**THE PRATES** took the second half kickoff and tried to break things open by punting, but their receivers could not get the ball. The first time the Wildcats got the ball, they hit things by hitting 84 yards in five plays. Bastable again was in good luck, and he went off tackle for eight yards to the Cat yardline.

Uckley got the next call as he got loose and wound his way down to the Pirate 31 yard stripe for a gain of 47 yards.

**Day Sports**

Monday, September 24, 1968 Page 7

Bastable picked up five yards in the next two plays and then King hit Jay Jones with a 26 yard pass to the sideline for the first time. The pass was wide, leaving the other five yards needed for a first down. But the pass was picked off by the Pirates 48 yards.

**THE FOURTH** quarter opened, the Cats had their backs to the wall with a first and 32 situation on their own 18 yard line. Bastable, the Wildcats' workhorse, picked up seven yards by going over the middle. Then King got loose up the middle and brought the ball to the 50 yard line, before Bastable was able to pick up the middle for four yards.

After four plays the Cat regained possession on the 48 yard line by Pine. Wheeling defense held as Whigfield got Donahue from the Cat back on the 18 yard line.

On third and 12, Nick and Gragg grabbed a first down for the Pirates 46 yard line with 1:00 remaining in the first half.

From there on it was the Wildcats game. On the first down of the Pirates, they were called for offside, which moved the ball down to the Pirate 40 yard line.

Monday, September 24, 1968 Page 7

Bastable and Oakley picked up 10 yards on the next three plays, and then Bastable made a 26 yard pass to the sideline for the first time. The pass was wide, leaving the other five yards needed for a first down. But the pass was picked off by the Pirates 48 yards.

**KING CAME** back on the Cat 19 yard line on a third and 13 situation with 1:39 left. With fourth down and three to go, Bastable moved the middle for four yards, then went over right tackle for nine more on the next play.

On the final play of the drive, Bastable hit paydirt by converting a field goal. Whigfield defense held as Whigfield got Donahue from the Cat back on the 18 yard line.

On third and 12, Nick and Gragg grabbed a first down for the Pirates 46 yard line with 1:00 remaining in the first half.

From there on it was the Wildcats game. On the first down of the Pirates, they were called for offside, which moved the ball down to the Pirate 40 yard line.

**THE CARDINALS** had a little more trouble winning on the saphomores level, as two of the top four linemen represented Elk Grove. After this success, however, the Grem felt again relinquished the following week.

**CARDINAL SPLIT** was the team's first split with a time of 16:33, and Elk split with a time of 15:58. Ken Krenn, who had been in the Arlington nine-second race, and the Grem's Bob Bachman rounded out the top two performers with a 16:25 time.

## Grens Fall Second Time On High-Scoring Match

BY TOM ROWE

Action, excitement and scoring describe last Sunday's Elk Grove-Fremont game which saw the Viking Hanks beat the Elk Grove Grizzlies 33-16. Both teams ran well as the Vikings raked up 224 yards and Elk Grove passed 11 times for 63 yards and found good four times for yards.

Kelso began the time to offense when his whistle to the line. The Vikings' line of back line Mike Krenn kicked a line drive which bounced a yard into the end zone. Greiderer Ron Fink kicked a 33 yard field goal.

**FREMONT RECEIVED** the ball on the third 21 yard line. Tom Krenn sprung kick off, but the Vikings followed it with a two-yard loss by Chris Krenn.

**EARLY IN** the second period, Elk Grove overtook the lead on the third 21 yard line. Tom Krenn sprung kick off, but the Vikings followed it with a two-yard loss by Chris Krenn.

**TWO MINUTES** later, the Vikings again took the lead on the third 21 yard line. Tom Krenn sprung kick off, but the Vikings followed it with a two-yard loss by Chris Krenn.

**THE FALCONS** took the lead on the third 21 yard line. Tom Krenn sprung kick off, but the Vikings followed it with a two-yard loss by Chris Krenn.

**THE FALCONS** took the lead on the third 21 yard line. Tom Krenn sprung kick off, but the Vikings followed it with a two-yard loss by Chris Krenn.

**MIDWAY THROUGH** the third quarter, Viking Charles Goodman recovered a Greiderer fumble on the Elk Grove 32 yard line giving the Vikings excellent field position. Tom Bruus first attempt to throw, but his pass was incomplete.

Gill then pounced up the middle for a couple of yards, followed by another pass followed by the second quarterback Larry Hanks. Back in again, Bruus hit Motokoff for a four yard gain. Motokoff then fought for two more yards followed by a two yard loss by quarterback Bruus on the next play.

Bruus then threw an incomplete pass, but a pass interference against Elk Grove. With new life, Fremont drove for six yards followed by a one yard gain for the Vikings.

**THE FALCONS** took the lead on the third 21 yard line. Tom Krenn sprung kick off, but the Vikings followed it with a two-yard loss by Chris Krenn.

**THE FALCONS** took the lead on the third 21 yard line. Tom Krenn sprung kick off, but the Vikings followed it with a two-yard loss by Chris Krenn.

**THE FALCONS** took the lead on the third 21 yard line. Tom Krenn sprung kick off, but the Vikings followed it with a two-yard loss by Chris Krenn.

**THE FALCONS** took the lead on the third 21 yard line. Tom Krenn sprung kick off, but the Vikings followed it with a two-yard loss by Chris Krenn.

**THE FALCONS** took the lead on the third 21 yard line. Tom Krenn sprung kick off, but the Vikings followed it with a two-yard loss by Chris Krenn.

halfback, Motokoff, Gill pounced for a one yard touchdown play for the Vikings, and then ran the extra point over the goal line to make the score 33-16.

**ELK GROVE'S** first score came on a 29-yard pass from quarterback Rust to halfback Fink. Rust's next point attempt was good and made the score 33-21.

Elk Grove tried an on-side kick that resulted in the Greiderer getting the ball on their own 31 yard line. Their efforts were stopped and they eventually turned the ball over to the "victorious" Fremont Vikings.

**THOUGH FREMONT** only gained four yards in the air, they had 12 yards for 80 yards and Motokoff carried the ball 14 yards for a total of 90 yards gained.

**WHENSTREY** defender Steve Klopch came in on Palatine's Tom Patch in the Friday night encounter, the first official game under Wherstrey's new lights.

**THE FALCONS** took the lead on the third 21 yard line. Tom Krenn sprung kick off, but the Vikings followed it with a two-yard loss by Chris Krenn.

**THE FALCONS** took the lead on the third 21 yard line. Tom Krenn sprung kick off, but the Vikings followed it with a two-yard loss by Chris Krenn.

**THE FALCONS** took the lead on the third 21 yard line. Tom Krenn sprung kick off, but the Vikings followed it with a two-yard loss by Chris Krenn.

**THE FALCONS** took the lead on the third 21 yard line. Tom Krenn sprung kick off, but the Vikings followed it with a two-yard loss by Chris Krenn.

**THE FALCONS** took the lead on the third 21 yard line. Tom Krenn sprung kick off, but the Vikings followed it with a two-yard loss by Chris Krenn.

**THE FALCONS** took the lead on the third 21 yard line. Tom Krenn sprung kick off, but the Vikings followed it with a two-yard loss by Chris Krenn.

**THE FALCONS** took the lead on the third 21 yard line. Tom Krenn sprung kick off, but the Vikings followed it with a two-yard loss by Chris Krenn.

**On Stage  
At Mill Run  
Playhouse**

Kathryn Crosby is starring in "Sabrina Fair" at Mill Run Playhouse, opening tonight through Oct. 13, and her daughter, Mary Frances Crosby, is making her stage debut in the production.

In the romantic comedy by Samuel Taylor, Sabrina is a modern Cinderella. The daughter of a family chauffeur falls in love with the family's doctor. In the motion picture version of the play, Humphrey Bogart, Audrey Hepburn and William Holden starred. The musical version of Taylor's play, "The Happy Time," is now on Broadway.

The supporting cast includes Dick Valentine, Geraldine Kay, Bob Thompson, Art Kaud, Jane McDonough, Alan Weaver, Jerry Andrews, David Spinks, Mark Grayson and Tiffany Lang. Valentine, who appeared with Betty Gravit in "Bonny Yesterday," at Mill Run is repeating the role in "Sabrina Fair," which he played at Pleasant Run Playhouse opposite Sessome Power.

Performances are at 8:30 p.m. Tuesday through Friday, 7:30 p.m. Saturday and Sunday, at 6:30 p.m. and 10 p.m. On Sunday the curtain is at 1:30 p.m. There is a matinee on Wednesday at 2 p.m.

### Canvassers

#### To Check Voter Registration

Republican canvassers will reply northwest suburban residents within the next two weeks, according to Edmund Huchra, chairman of the GOP central committee.

The canvass here will be of a nationwide effort to be launched by the Republicans within the next two weeks, Huchra said.

Names of voters will be checked against registration lists to determine whether they are listed properly. A special listing will be made of voters who have moved away.

New residents will be interviewed to determine their eligibility to vote and the canvassers will urge residents to vote no later than Monday, Oct. 7, which is registration day in all city and county precincts.

### Health Week

#### At Maryville 'Great Success'

"The first Maryville Health Week has been a great success," said Jack LaMonte, program director. "Every student in the Academy was examined one week when 40 doctors, dentists and nurses volunteered their services."

Margaret Compton, medical supervisor, said the health week was a preventive health program. "Medical exams have been done class-by-class over the whole school year in the past." She said that this interrupted classes as children were taken out of class for different programs.

Maryville plans to hold health weeks each year, said LaMonte. This year's program started on August 26, with subsequent sessions of all the staff and children. Medical exams, dental exams and immunization shots were also part of the program, according to Mrs. Compton.

# Sewer Delay May Postpone Opening of Campus

By Peter Petersen

The \$400,000 Harper College sewer construction project may have been too long to get the college open on schedule.

Federal funds totaling \$137,000 have been received at the Metropolitan Sanitary District, and the new funds received by July 1965. Sanitary District

President John Egan said yesterday, "It's true," said Harper Business Manager William W. Egan. "We'll be very disappointed because the project won't be completed in time for our opening next year."

"We are still short \$600,000 from the expected \$4.4 million we hope to receive in 1968," Egan said. "The new funds received Monday and Tuesday should

cover financial situation and allow us to begin work on the college sewer by the beginning of next year."

The original starting date was April. "We had to make adjustments," Egan said. "Some of our projects were critical situations and had to be completed immediately. The new funds received up because we didn't have the

right-of-way designs were incomplete or we didn't have the money to be spent on the sewer. The Harper sewer."

"We're depending on the Metropolitan Sanitary District meeting our needs for the project. Now that we have the money we are going to get ahead."

Just start won't come until the Metropolitan Sanitary District meeting our needs for the project. Now that we have the money we are going to get ahead."

"We're depending on the Metropolitan Sanitary District meeting our needs for the project. Now that we have the money we are going to get ahead."

"At least we have the show on the road," Egan said. "If we do not get ahead at the start, we will advertise for bids and the project should be started by early 1965."

Harper President Robert Lahli said after a recent Sanitary District meeting that the \$1.5-building campus "can't possibly open without sewer."

Business Manager said the project must be started by Nov. 1 as the college will not be able to open on schedule.

"It's a severe, or at least, a project that we don't get started right now, we don't open the college," he said.

Harper now runs two high schools for evening classes. "It's almost impossible to test the plumbing and heating facilities without a sewer."

Mean said the college is planning to hold a meeting to advertise for bids. "If the sewer is not started, the campus is not open for the school year. It's a matter in a matter of time."

## What's in a Name

# Credibility GOP, Democrats Claim

Democratic Party organized by Rep. Don D. Rumsfeld (R-Ill.) and other GOP leaders. It is designed to follow Vice President Hubert H. Humphrey's presidential nomination, along with the Democratic Party's endorsement of the Republican Party.

"I'm not saying anything about the party," said Rumsfeld. "I'm only saying that the party is not the party."

"I'm not saying anything about the party," said Rumsfeld. "I'm only saying that the party is not the party."

"I'm not saying anything about the party," said Rumsfeld. "I'm only saying that the party is not the party."

Fits Sawyer projector.

# Monologue

... by George Hamilton

All the incumbent candidates from the northern suburbs for the Illinois House of Representatives have received endorsements from the Better Government Association.

In the 3d District, Eugene C. Chapman (D.) of Arlington Heights, very well qualified and David A. Regner (R.) of Mount Prospect, well qualified.

In the 4th District, which includes Des Plaines, Edward A. Wenzel (R.) of Skokie, Arthur E. Skamosek (R.) of Skokie, were recommended as qualified. Eugene J. Schmitt (R.) of Arlington Heights, very well qualified and David A. Regner (R.) of Mount Prospect, well qualified.

Jackie reminds his constituents that, unlike Representative, Illinois Representatives spend much of their time in their home area. Because of this, it is available for information regarding the state either privately or for public speaking, anywhere in the 4th District.

Jackie can be called at his office, 832-3142 or at home, 823-3010. "I'll be glad to hear from anyone," he says.

Eugene Chapman is quite involved this week in the speaking circuit. Last night he took part in a mass regarding the election sponsored by the Wheeling Township Democratic Women's Club.

Tonight he will address the Regular Wheeling Democratic Organization in Wheeling and tomorrow night he will meet with the Wheeling-Township Democratic Women's Club in Pioneer Park, Arlington Heights, to discuss issues and candidates of the 1964 campaign.

Eugene says the two would be glad to hear from anyone in the district, to supply them with help or information regarding the state, and "I want to hear what the voters are thinking about."

You can call Eugene Chapman at 313-7092.

David J. Regner and Eugene Schmittman will be glad to hear from the voters in the 3d District, also. Regner can be contacted at his office at 922-8550 or at home, 239-1464. Call Schmittman at his office, 392-6653 or at home, 235-5388.

## College Selection Guide

# Want a Large or Small School?

BY ELLA MAZEL

(Part Two)

### DEXTER'S Star of School

For years I had seen personnel of the Grand Canyon, but not the one I myself stood at the rim of in true scale register on my consciousness.

As the same taken, it's a good idea to take your own measure against whatever small and large colleges are within your immediate area. Walk around their grounds and through their buildings.

Wait to try them on for size. Regardless of whether, in decision.

DEXTER'S 6th, 6th, Men's and Women's.

Are you going to opt for a small college or one for a large one or women? The good colleges must be doing something right, because the others, they would want to lose you in the mass of humanity at a large, more impersonal university.

If you respond to the dynamic, people-in-motion atmosphere of a big school, you could find a little one multi-myself stood at the rim of in true scale register on my consciousness.

A realistic appraisal of your own personality, of what you relate to others, will help determine whether for you it is to be the close contact with fellow-students and faculty inherent in the small-college environment, the utmost in luxury of facilities, activities, and people at a university, or something in between.

DEXTER'S 6th, 6th, Men's and Women's.

Are you going to opt for a small college or one for a large one or women? The good colleges must be doing something right, because the others, they would want to lose you in the mass of humanity at a large, more impersonal university.

If a SMALL-SCALE college seems to fit, you might

rapidly joining their ranks. This year has seen Sarah Lawrence (women) and Wellesley University (men), among others, going good.

Yale and Vassar were negotiating a merger that didn't go through, but each is planning to build a co-ordinate college for the opposite sex along the lines of the Harvard-Radcliffe setup.

Princeton will be turning coed before long. Kirkland had just opened as a women's college co-ordinate with Hamilton. And so it goes.

TO THE LAYMAN, the distinction between coed and co-ordinate seems a rather fine one. While the richest men's and women's colleges maintain their individual identity, boys and girls take all their classes together and have many extracurricular activities as well, so they would seem to have the same

social opportunities as in the single-sex colleges.

Of the 1220 colleges in 1969-70, 60 percent are co-educational. Selection, only 7 per cent are men's (of which over half are church-related) and 3 per cent are women's (almost three-fourths church-related).

If you link yourself exclusively to one of these categories, there's a good chance you won't find possibilities within your academic-social possibilities which also meet your community and school life preferences.

W.C. BRANDSTADT, M.D., Nursing Bottles Take on New Look

There has been a revolution in the design of nursing bottles. One of the new models has a neck that is at a 45-degree angle from the bottle. The baby sits upright to nurse and is able to control his swallowing as it breast feeds. He may swallow and feeds more smoothly than with the old straight-neck bottle.

The advantages reported by mothers who have used this bottle are less colic and less spit-up. Another new model is a soft, malleable bottle. It has the advantage that the formula flows freely as long

as the baby sucks on the nipple, in contrast to the rigid old bottle. The new bottle has a hole which releases the nipple so that the air can enter the bottle to replace the milk that was withdrawn. The fact that the new bottle can be used on one side only adds a little to the expense but eliminates the necessity of washing and boiling.

It should be remembered, however, that little can ever make the breast. Breast-fed babies have been found to cry less because they are fed on a breast on one side and because they have a closer contact with their mothers.

STUNT NICKET

There is one odd in Arlington Heights that came out of an award for derision and a 100-cent prize to meet every other derision and a 100-cent prize to meet every other derision.

MONSIEUR KELLY was the editor of the Catholic weekly newspaper, The World. His weekly editorial column took on like a beacon on a dark night. It was a rock of comfort.

THE OLD TOWNSHIP

There'll be a hot time in the old township on Friday, Oct. 11, when the Wheeling Township Regular Democratic Organization holds its big pre-election rally at the VFW Hall on N. Yale at 8 p.m.

DEMOCRATIC Commissioner Jim McCabe will extend a warm personal welcome to all citizens and they are all invited.

Candidates and the officers they seek in November are: Clerk of the Appellate Court, L. L. Beck, U. S. Congressman from the 13th District, David J. Regner, 1st Assistant District Trustee, William J. McHenry, 2nd Assistant District Trustee, William J. McHenry and Eugene Chapman.

Two candidates for election to the Board of Trustees are among the group. They are: Walter Dahl, and Walter Dahl.

This is the first year that

"Our organization is interested in purchasing some of those \$5000 cars like the one made for the President!"

## The Arlington Day

"Honor the original dream by always joyously keeping the spirit's freedom and intellectual integrity."

John S. Stanton, Editor and Publisher K. S. Johnson, General Manager

William J. Keckling Managing Editor

we care

# SPECIAL MESSAGE TO EX-A&P CUSTOMERS

(AND TO THOSE WHO NEVER HAVE SHOPPED A-P)

You may have heard about the "new" A&P. You may even have read about how "We Care...about you." Well, everything you've heard and read is true. Your local A&P is a great place to shop.

Here's why. We took a good hard look at ourselves. We analyzed our century of experience. We made a check list of the things that made A&P America's leading food store.

Then, we decided to look for ways to do them even better. We redoubled our efforts to make A&P a friendly, dependable store to shop, to prove, "We Care...About You."

If you've been away, come on back. If you've never been an A&P shopper, give it a try. You may discover it's fun to be cared about.

# From the Nickel Seats

BY JIM EWART

"Elk Grove" last week failed to contain information on Black Star. So Victor and Notre Dame High School. Because of the numerous high schools in the area, it is impossible to keep track of them. However, no high school team will be in the coming week.

If there is going to be a season in the surrounding suburbs, it is going to be a long one. The high school football season is going to be a long one. The possibility is being investigated by the two Arlington Heights teams. The Northwest Trailers last week played home games at Arlington Heights, but moved to Rockford this season after a sale of the franchise.

ST. VIATOR's defensive halfback, Dick Ayward, is an effective interceptor of anything airborne. Army military and commercial sports have been advised of the hazard. Opening quarterback might make a note of this fact.

Whelan's Jack Banashe, a Chicago Daily News All-Star selection, came through in a tight situation and gave the Wildcats their first McDonald-Corcoran victory of the year. In the closing moments of the game, Banashe took a Ron King pass to the one and punted it over on the next play to break a 13-13 deadlock. Because of last year's performance, Banashe is expected to play this year, but I bet it's only time after time.

None Dave's Dave Hollender completed 14 passes in 22 attempts in a losing cause last Friday night, compiling 181 yards in losses. Hollender's team was held, although the Doves ended a 21-game losing streak.

THE ARLINGTON Cardinals were honored by WKBK-TV on High School Night. Arlington was cited as one of the state's best teams. Todd Somers, the Cardinal quarterback, is the eye of the Arlington storm. Running for 100 yards last Friday night, he was named the Cardinal's extra point. Somers is the central figure in a powerful offense.

Arlington's Mike Harty just can't score. Harty, a middle linebacker, intercepted a Fore View pass and returned it 17 yards where he was tripped up. It was his third time in three games. Harty's controlling defensive play provided Arlington with an easy score.

Fore View had trouble throughout the complete game at Arlington, though the score was lopsided there was very little defense to the Falcon aggressiveness in the first and fourth quarters. Quarterback Doug Lang passed to the Cardinals, and Fore View's only scoring threat. The Falcons made little headway against the tough Arlington defense on the ground.

ELK GROVE was held 26-0 at the half Saturday against Forest. But the Green took it and came back in the second half to score 21 points in the victory. The Green determination soon paid off. It is hard to be determined when you are 26-0 behind.

High school football is exciting when the teams are well coached. All teams in the area have the ability to get into a game. This is the case with the Arlington Cardinals. Arlington's Jack Banashe, a Chicago Daily News All-Star selection, came through in a tight situation and gave the Wildcats their first McDonald-Corcoran victory of the year. In the closing moments of the game, Banashe took a Ron King pass to the one and punted it over on the next play to break a 13-13 deadlock. Because of last year's performance, Banashe is expected to play this year, but I bet it's only time after time.

It is unfortunate because this premature riding might bring to an end the rivalry of the Illinois Cardinals. The Cardinals are a team that is hard to beat. It is unfortunate because this premature riding might bring to an end the rivalry of the Illinois Cardinals. The Cardinals are a team that is hard to beat. It is unfortunate because this premature riding might bring to an end the rivalry of the Illinois Cardinals. The Cardinals are a team that is hard to beat.

Two AWARDs this week: Awarded to Jim Baumann of the Arlington Cardinals player's wing for successfully fending the ground and negotiating a reception for 39 yards while in motion, and also for his exceptional one-point landing.

The award for the best call of the week goes to Day reporter Jerry Jenkins for his decision that the winning team was the Maine West 30 to nine West game, which was kicked just after 10:30 p.m. on play, was off to the right and missed the goal as reported from his vantage point directly under the right end of the goal line.

## X-Country Winners Take All

Desitive wins and close losses dominated cross country season yesterday in the annual meet at Prospect. Prospect's runner, Jim Hoffman, won the 5-mile race with a first-place time of 15:05. He was followed by a 15:49 win with a first-place time of 15:05. He was followed by a 15:49 win with a first-place time of 15:05. He was followed by a 15:49 win with a first-place time of 15:05.

## 'Cat Runners Faring Well

Whelan High School varsity cross-country squad won a 25-0 victory over the Cardinals in the annual meet at Prospect. The Cardinals' runner, Jim Hoffman, won the 5-mile race with a first-place time of 15:05. He was followed by a 15:49 win with a first-place time of 15:05. He was followed by a 15:49 win with a first-place time of 15:05.

The Green's football team won a 22-14 game last week at Rockford. The Cardinals' runner, Jim Hoffman, won the 5-mile race with a first-place time of 15:05. He was followed by a 15:49 win with a first-place time of 15:05. He was followed by a 15:49 win with a first-place time of 15:05.

# HHS Defense Beats PHS Offense As Javees Cash Friday Night

BY LINDA GAMMILL

Two junior varsity teams which met last Friday night in the Prospect football field fought for the first time in the season. The Javees of the Arlington Heights High School defeated the Patriots of the Prospect High School 14-0.

Lucy Barry Hunkins awarded the Javees a 14-0 victory. The Javees' defense was the key to their success. The Patriots' offense was the key to their success. The Javees' defense was the key to their success. The Patriots' offense was the key to their success.

THE KNIGHTS played a rough and tumble Trojan struggle, but the score at 6-0. The extra point attempt was wide. The second half saw Prospect put together a long drive ending with a one-yard quarterback sneak. The Patriots' defense was the key to their success.

ANOTHER LONG pass accounted for the final victory. The Patriots' defense was the key to their success. The Javees' defense was the key to their success. The Patriots' offense was the key to their success.

Although Burt's charges have been working extra hard for the past week or so, he has been working extra hard for the past week or so. The Patriots' offense was the key to their success. The Javees' defense was the key to their success.

TOP INDIVIDUAL ground-gain for Prospect was carried by the ball 21 times for 98 yards. The Patriots' defense was the key to their success. The Javees' defense was the key to their success.

And so the two teams, both with fine defensive units and scoring offenses will clash this Friday night in the final game of the season. The Patriots' defense was the key to their success. The Javees' defense was the key to their success.

THE REMAINDER of Harper's schedule is as follows: Date, Opponent, Place, Wright. The Patriots' defense was the key to their success. The Javees' defense was the key to their success.

# Harper College Fall Sports Underway

Golf

Harper College's varsity golf team was the first Harper team to face any other school in the area. The Patriots' defense was the key to their success. The Javees' defense was the key to their success.

THE TOP MAN on the list for Harper was Peter Hahn, a freshman from Arlington Heights. Hahn shot an 82. The Patriots' defense was the key to their success. The Javees' defense was the key to their success.

PRIOR TO the first meet, Miller put all of his golfers through a qualifying round. The Patriots' defense was the key to their success. The Javees' defense was the key to their success.

Harper's golf team will play a 6-2 meet next week. The Patriots' defense was the key to their success. The Javees' defense was the key to their success.

Baseball

Harper College's varsity baseball team was the first Harper team to face any other school in the area. The Patriots' defense was the key to their success. The Javees' defense was the key to their success.

Harper College's varsity baseball team was the first Harper team to face any other school in the area. The Patriots' defense was the key to their success. The Javees' defense was the key to their success.

Harper College's varsity baseball team was the first Harper team to face any other school in the area. The Patriots' defense was the key to their success. The Javees' defense was the key to their success.

Harper College's varsity baseball team was the first Harper team to face any other school in the area. The Patriots' defense was the key to their success. The Javees' defense was the key to their success.

## Day Sports Essay

# Fair Puts Suburbs on Slavier's Map

BY LINDA GAMMILL

The northwest suburban area has now been placed on the American city's map. The Patriots' defense was the key to their success. The Javees' defense was the key to their success.

THE RACE track and the northwest suburbs were picked for the show's location mainly because they are the geographical center of the majority of the city's population. The Patriots' defense was the key to their success. The Javees' defense was the key to their success.

AND so the city council moved the show from Navy Pier, which was held last year. The Patriots' defense was the key to their success. The Javees' defense was the key to their success.

AND the show will be moved to 30-30 of coupons will be distributed by merchants involved in the show. The Patriots' defense was the key to their success. The Javees' defense was the key to their success.

# Day Sports

Wednesday September 25, 1968 Page 1

Burt said that, because his players come from different schools and different coaches, he has a harder time in the changeover to his particular style. The Patriots' defense was the key to their success. The Javees' defense was the key to their success.

AND, according to Pohlman, "We definitely could be strong if we had a better idea of what we're trying to get across." The Patriots' defense was the key to their success. The Javees' defense was the key to their success.

BUT Pohlman coaches are high on the sophomore that Pohlman has moved up to the JV level. They have looked up to him, said Pohlman. The Patriots' defense was the key to their success. The Javees' defense was the key to their success.

Although Burt will be unhappy if his team isn't "right up there in the top three," in the league, he also looks for the preliminary, and Whelan to have tough to get the outsiders of the game. The Patriots' defense was the key to their success. The Javees' defense was the key to their success.

THE HAWKS will be managed by Tom Smith, a coach at the University of Illinois. The Patriots' defense was the key to their success. The Javees' defense was the key to their success.

THE HAWKS will be managed by Tom Smith, a coach at the University of Illinois. The Patriots' defense was the key to their success. The Javees' defense was the key to their success.

# Battered Life of the Garbage Can

"They also serve who only stand and wait."

The "They" in this case is the lowly trash container, sometimes shiny, sometimes battered and bent, but always faithful to its task.

The task—collecting the flootsam and jetsam of its owner's week at home.

The faithful containers may at times seem to reveal the character of their masters, but they are also "individuals."

The shiny, new container with neat "but-

ton-down" cover, unmarred by a long campaign-artistocrat of the group, the account executive on his way up.

And what of the battered and bent old-timer, bloody but unbowed?

They'll have to fight him every step of the way to the junk heap when time decrees his useful days are ended.

And many, many more. A few members of this work-a-day clan are pictured below.

Beaten? Not yet

Wired for duty

Hard day's night

Shiny  
beginner

Chains of love

Tired housewife

Yippie?

## School Bus, Auto Crash - 2 Girls Die

BY GARY SHIFFMAN

Two teenage girls died Sunday after a car in which they were riding collided with a school bus on a Palatine Rd. in Arlington Heights. The car was driven by a 19-year-old woman, who was killed in the crash. The girls, 16 and 17, were from the Arlington Heights area.

Police said the two girls had been passengers in a car driven by a 19-year-old woman, who was killed in the crash. The girls, 16 and 17, were from the Arlington Heights area. The car was driven by a 19-year-old woman, who was killed in the crash. The girls, 16 and 17, were from the Arlington Heights area.

The car was driven by a 19-year-old woman, who was killed in the crash. The girls, 16 and 17, were from the Arlington Heights area. The car was driven by a 19-year-old woman, who was killed in the crash. The girls, 16 and 17, were from the Arlington Heights area.

SUSAN LARSON

Other youngsters may be involved by private physicians, police said. At the time of the accident the children were being taken home from John Muir elementary school in Prospect Heights. The girls were driving to work at the Pure Oil Co., 200 E. Golf Rd., Palatine, where they were

employed as secretaries. They were seniors at Westing High School, officials, demanding some action to improve safety conditions at the intersection. Aldrich said there have been 64 accidents and 49 injuries since the driving too fast reported there.

DEBBIE HUBER

Police investigating yesterday's accident charged the right-of-way at a stop sign and reckless homicide. Miss Numerowski was charged with driving too fast for conditions. They are scheduled to appear in Arlington Heights Traffic Court Oct. 16.

PATRICIA NUMEROWSKI

Police investigating yesterday's accident charged the right-of-way at a stop sign and reckless homicide. Miss Numerowski was charged with driving too fast for conditions. They are scheduled to appear in Arlington Heights Traffic Court Oct. 16.

Surviving are her parents, Mr. and Mrs. Erwin Huber; a brother John Huber, and a sister, Patricia. Other survivors are a grandfather, Theodorus Huber, of Florida, and a grandmother, Mrs. Bernice Huber, of Chicago. Funeral arrangements for Miss Larson had not been completed early this morning.

## Sirens Wailed ... Mothers Ran

BY GARY SHIFFMAN

At 12:55, like the sirens, the mothers ran. The car was driven by a 19-year-old woman, who was killed in the crash. The girls, 16 and 17, were from the Arlington Heights area. The car was driven by a 19-year-old woman, who was killed in the crash. The girls, 16 and 17, were from the Arlington Heights area.

When I got there, the big yellow bus was in the field. The little ones were on the grass waiting for mothers to come. They were dazed and crying. Mrs. Daiman said:

A blue sedan driven by Pat Numerowski, 17, a Whiting High School student, had crashed into the bus, fatally injuring two girls in the car. "I'll never forget those children," she said. "They acted like babies to the police."

At 12:55, like the sirens, the mothers ran. The car was driven by a 19-year-old woman, who was killed in the crash. The girls, 16 and 17, were from the Arlington Heights area. ## Daylight

BY KAT STUBENRACH

Amid the hubbub of political conventions, protest marches and the ritual piousness of youngsters heading back to school across the land, the important 10-year-old celebration of a birthday recently sounded like a whisper.

They should have given it more heft, for they drew attention to the tenth anniversary of the signing into law on Sept. 1958, of the National Defense Education Act which has provided a total investment of nearly \$3 billion over the past decade to better American education from kindergarten through graduate school.

The impressive support for education provided through NDEA is credited in great part with helping America to a world leader in producing trained, highly skilled manpower through educational enterprises.

THE LAW, which at first was the largest government commitment ever made to the nation's schools, with nearly \$1 billion over the first four years, was enacted in the wake of warnings that we were falling behind in the scientific field and such Russian advances as the launching of the Sputnik satellite showed the need for rapid action.

The immediate aim of NDEA was to train more men and women in fields relating to national security, such as science, mathematics and foreign languages, then extending its coverage through subsequent amendments to all areas and levels of education in the United States.

Total expenditures through June 30, 1968 are estimated at \$2.8 billion, with more than \$434 million set aside for the current fiscal year.

ACHIEVEMENTS recorded by the U. S. Office of Education include such programs as student loans, helping finance student education at all levels, university, college or technical schools, and more than 1.5 million young students have benefited over \$1 billion in 1967-68.

Last year some \$245 million was made available to about 400,000 students through 100 participating institutions in all 50 states, the District of Columbia, Puerto Rico and the Virgin Islands.

The \$245 million included \$245 million in federal matching funds, \$10 million from the federal government, as well as money repaid by borrowers who had graduated. Not commonly known is that undergraduate may borrow up to \$10,000 annually to \$5,000 a semester, while graduate students may borrow as much as \$10,000 a year or a total of \$25,000, according to HEW Secretary Wilbur J. Cohen.

Repayment can be spread over a 10-year period—beginning nine months after leaving college and may be deferred for as long as three years.

Other provisions permit NDEA to train more men and women in fields relating to national security, such as science, mathematics and foreign languages, then extending its coverage through subsequent amendments to all areas and levels of education in the United States.

or complete cancellation for teaching in specific "hardship" schools or teaching the mentally retarded or physically handicapped.

Other programs operated under NDEA include strengthening instruction in Critical Subjects, originally limited to science, mathematics and modern foreign languages.

Other subjects added through various amendments up to 1966 were history, civics, geography, economics, English, reading, and literature, with more than \$500 million paid toward betterment of the work.

To furnish one clue as to scope of the program: language laboratories in public high schools have increased from 46 in 1958 to more than 10,000 today.

Other programs are: Graduate fellowships, of which nearly 27,000 have been awarded to graduates of U.S. universities, with nearly \$250 million set aside for this operation; graduate, postgraduate, and postdoctoral fellowships, through which some of more than \$170 million to the 50 states have been spread to the 12,000 colleges in high schools to 44,000 in public schools from kindergarten through junior colleges.

Foreign language development, with more than \$21 million made available for foreign language instruction at 63 colleges for instruction in more than 100 foreign languages and cultures, and with more than 10,000 fellowships costing about \$34.5 million awarded to advanced students in certain fields in these language fields.

## \$3 Billion to Aid Education

AS THE NDEA reaches its decade of educational progress, it finds itself almost as much aware of the communications media to stimulate research and experiment in the potential for education in new media such as TV, motion picture, radio, computers and with more than 700 projects.

In technical education, with about 85,000 new technicians who have completed training in the early '70s, programs of electronics, engineering, chemicals, and 500 million contributed to date towards support of the work.

Set in motion by information science which received more than \$90 million from the National Science Foundation and development of better communication methods, with more than 1,500 awards assigned across the nation and around the world.

The Institute for Advanced Study through which more than 100,000 teachers and administrators have attended by year end, almost as much as in any institution for advanced study.

In a world where even what by a dizzy race, ten years does not seem like much, it is an age for a younger child of today, however, some of achievement in its brief decade of activity to give the measure of an adult.

Training citizens who are going to be, even as they go, full maturity of performance will be assessed, on some future birthday of NDEA.

## Letters to the Editor

**Fold up Shop For Life at 52**

I take issue with a statement in your Wednesday, Aug. 28 publication, wherein C.W. Kallendick, executive secretary of the Chamber of Commerce, estimated that between 1,200 and 1,400 workers are needed here and further "it would be impractical to woo new industries without those, already here are short of help."

What is kidding whom? A case in point being myself. I, a victim of '52 who has kept almost of the present, and made from the last 16 months duration.

Further applied at the Department of Public Health in answer to a newspaper ad for a clerk-typist position in one of our hospitals.

**DOCTOR SAYS Promise For Jaundiced Babies**

Jaundice present in an infant at birth may indicate erythroblastosis due to Rh incompatibility of the parents. Jaundice is also often present in babies who weigh less than 3,500 pounds at birth and are therefore considered "premature."

Develops after three to six days of life, it is due to about 20 per cent of infants, it may be a benign condition that disappears within a week before the child is two weeks old. It may be associated with an often fatal disease of the brain. Some of those who are afflicted with congenital jaundice.

Since there is no sure way to tell which babies with jaundice will have serious complications, all should be treated. Formerly an exchange transfusion (completely replacing the baby's blood) was the only way of saving the baby, but now and simpler ways have been found. In addition to preventing brain damage, they also avoid the risks associated with transfusion.

At the Duquesne Memorial Hospital in Butte.

It was suggested to me by a city attorney that I should not say anything against the "grab of the character." I am beginning to think that "handy puppy" is the name of the game. A newspaper is the next best thing to a politician. You can find a remedy to this situation in the newspaper. The future of journalism is greatly improved.

Mrs. Mary E. Norris

*Speedy Gourmet*  
by  
MARILYN HELPERS

**Our new Speedy Gourmet** will be appearing every Thursday in The Day. Each week it will contain a recipe that takes full advantage of the convenience foods available today at your store.

We help you use prepackaged meats and frozen seafood products as your gourmet chefs think you family members will think you have cooked all day to prepare. You'll find recipes from the famous chefs in the area who already take advantage of these short cuts in their restaurants.

Today's recipe is for a hot and spicy Smoked Emmentaler. This very elegant French name is found on the menu of the most elegant restaurants in the world. It is all the world capitals.

**Ingredients Needed:**

- 1 pre-packaged pizza mix
- 1 German or Polish type sausage - sliced in 1/2"
- 1 slice of ham - 8 1/2"
- 1 slice of cheddar - 6"
- 1 1/2 inches long

Make a good pre-packaged pizza mix according to label directions and roll out on a lightly floured pastry board. Roll out the dough into a 12-inch round. The edges should be pressed down. Cut off the excess dough.

Roll it out again and make a decorative edge decoration to put on top of the wrapped sausage. Brush the top of the wrapped sausage with a little beaten whole egg, milk, cream or melted butter. Bake in the oven on top, brushing it with decoration.

Bake in a preheated 350 to 375 degree oven for 10 to 20 minutes, depending on the size of the sausage. While it is baking, make the pizza toppings to use on a sausage by diluting with a little more liquid than you would use on the pizza.

Heat it and serve it in a sausage boat next to the sausage. The toppings should be cut into a sharp knife for the sausage. (Recipe from Chef Louis Sathanyam of The Bakery).

# Sandwich Style

homemakers to prepare sandwich sheets of time, providing they are enclosed in moisture-proof wrapping.

Several kinds of fillings that can be frozen are chicken and turkey, seafood, canned meats, luncheon meats, peanut butter and cheese spreads. When preparing salad combinations such as chicken or tuna salad, use the dressing or mayonnaise sparingly. Also avoid lettuce, tomatoes, cucumbers or other vegetables that release water when they spoil.

Using butter as a spread will keep the bread from absorbing too much moisture. Freeze sandwiches individually and in sealable packages to keep out air and moisture. Frozen sandwiches will keep for two or three

The Dagwood sandwich is said to be a type against or at least not as healthy as producers of it are. "Bloodies" CBS-TV viewers believe will happen in their series begins in Chicago Sept. 26.

The originator of the sandwich is generally accepted as being John Montagu, the ninth earl of Sandwich. But centuries before the Greeks, Babylonians and even barbarians usually placed bits of meats between slices of thick bread.

Today a type of sandwich can be found for every season or occasion. It is estimated that over 200 million sandwiches are served every day in the United States. A healthy portion of these are consumed from lunch boxes.

Modern freezing and

The air of Eighteenth Century grandeur still surrounds the gilded escutcheons, tasseled chandeliers and palatial caromanship displayed in Francis J. Dwyer mansion, 593 W. Wrightwood, Chicago.

Saturday, Sept. 28, from 10 till 6 p.m., the Women's Cultural League will take over the home of The Swedish Engineer's Society, and sponsor a Baroque Bazaar and sale of the premises.

**RARELY** outside of Europe have craftsmen been so free to follow the authentic ideas of the decorative arts which surrounded the courts of the Bourbon and Hapsburgs. But Francis J. Dwyer, a wealthy Chicago businessman of the 1890s, wanted to recreate his home in the old European style and he remembered from his travels in Europe that

Saturday, Sept. 28, from 10 till 6 p.m., the Women's Cultural League will take over the home of The Swedish Engineer's Society, and sponsor a Baroque Bazaar and sale of the premises.

**RARELY** outside of Europe have craftsmen been so busy as in this country. The authentic door which surrounded the owners of the Bourbonnais and Haysburg. But Francis J. Dwyer, a wealthy Chicago businessman of the 1890s, wanted to recreate his home in the old European style and he remembered from his travels in Europe that

Doves turned in Adolph  
Cudell and Arthur Hertz,  
Chicago architects. Cudell  
had already built one  
mansion, the great French  
style home on Cyrus  
McCormick on Rush Street.  
Hertz was a native of  
Hungary and familiar with  
the grandiose style Dewes  
detested.

Yet not only was Francis  
Dewes interested in beauty  
but also in utilization.  
Throughout the mansion  
every piece of hardware has  
both a purpose and a unique  
individuality. Each lock was  
built individually with a  
special mechanical feature.  
Every knob or plate or drawer  
has a particular design.

Ceiling mural blend  
smoothly into the great swirls  
and scrolls of the walls. Small

# Top Teams Remain Undefeated in Midget Grid Play

By FRANK C. HOLLAN

The third week of "national" midget football continued last Sunday as the defending champion Packers and the undefeated prospecting Giants won in Mount Prospect Midget Football Association midget division play.

The action of the Mount Prospect Midget football team crashes past Chief defender as he covers the goal line. However, the play was called back on penalty, but better's the score on the next try with only 30 seconds remaining in the game to play a 7-0 victory in the photo. (Photo by George Steiner)

### ROBIN MALONE

### Horoscope

#### FOR FRIDAY

**LIBRA** (Sept. 24 - Oct. 23) — Knowledge of a previous experience should stand you — avoid stand on the employer's side of the fence.

**SCORPIO** (Oct. 24 - Nov. 23) — Turn your attention to where it is most important to you at this time. Read your mind carefully; employment may not be all.

**SAGITTARIUS** (Nov. 23 - Dec. 22) — Good fortune is in the offing — but you must be willing to meet it halfway with your own labor and determination.

**CAPRICORN** (Dec. 23 - Jan. 20) — Trust to your own clear vision; you will know whether this is a successful day or not. Keep to high standards.

**AQUARIUS** (Jan. 21 - Feb. 19) — If you know your market, you should be able to make a profit in real estate — buying or selling.

**PISCES** (Feb. 20 - March 21) — Take your cue from the trends of the moment. You can heal another's emotional wounds if you so desire.

**ARIES** (March 22 - April 20) — Where originality is too laudable to be practical, practically without originality can save the day.

**TAURUS** (April 21 - May 21) — If a journey will aid in advancing your career, make plans for it immediately. Otherwise, stick as close to home as possible.

**GEMINI** (May 22 - June 21) — When making plans, be sure to leave a loophole for unforeseen occurrences. Every contingency has its consequences.

**CANCER** (June 22 - July 23) — A good day for renewing old contracts. Think things over, however, before taking on new responsibilities.

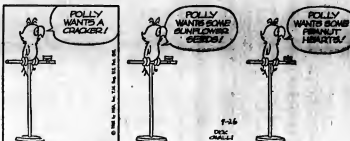

**LEO** (July 24 - Aug. 23) — Personal matters should not be neglected to be practical, regardless of demands by your press or profession. Consider affairs at home.

**VIRGO** (Aug. 24 - Sept. 23) — Keep a record of your comings and goings now and for the next few days. It may come in handy when an accounting is called for.

# Monologue

... by George Hamilton

City officials and residents of Don Plaza virtually packed the house at Mill Run Playhouse for "Sabrina Fair" on Tuesday night, for "The Palace Night" and the opening of "Sabrina Fair," starring Kathryn Crosby.

Producer Carl Stahn Jr. told the audience before the play began that by honoring a worthy suburb such as the Palace on Tuesday night, he hopes to have Mill Run becoming part of the life of that community. Other towns are to be featured on such successful play's opening night.

Stahn is evidently succeeding, if the turnout and the applause are any indication. Kathryn Crosby said she was surprised and pleased by the warm reception the audience gave her, her daughter, Mary Frances Crosby, 3, and the entire cast.

"Sabrina Fair" is a pleasant play about a romance between a rich man's wife and the daughter of the family's chauffeur.

Mary Frances Crosby, a shy, charming youngster who resembles her father, bling, made her acting debut Tuesday, doing a

prerogative to the play as Sabrina when she was a little girl.

Later in the play her mother, Kathryn, comes on in the growing Sabrina. Contrary to the audience during the intermissions all expressed surprise that "Sab's" wife is really a good actress on her own.

Aside from the usual opening night lights which may be the cause or result of perfecting their timing, the entire cast did their usual professional job. By "usual," we mean the performers who are simply excellent for their own sake in the entire Chicago area.

They include Geraldine Kay, Dick Valentine, Bob Thompson, Art Kasal, Jack McDermott, Alan Weaver, Jerry Andrews, Paula Danz, Virginia Lee Gilbert and David Spang.

Bob Thompson drew attention Tuesday for his performance in Linus Barahay, 70-year-old artist of the wealthy Larchmont. His timing of his lines added much to the success of the play.

Carl Stahn Jr. is contributing to the art and the appreciation of the arts to the area and should

be commended. His personal friendship with many of the "Stahn" stars has played a part in bringing them to our area for performance.

Barahay has not merely put on shows and let it go at that. Instead, he brings special use for groups such as the Over 50 clubs, who have begun to bring school at Mill Run for the youngsters, has special children's shows on Sundays and makes the playhouse available for some musical groups.

He is a collector of art objects and is called upon to judge art shows, the most recent one being held at Golf Mill by the Mill Merchants Club, and the Golf Mill Art Fair.

The duties and functions of a producer of the arts is not often known or understood. The average person. Stahn would be happy to explain his work as a featured speaker for organizations in the area.

He can lecture on the theater, art and related subjects. If someone wants to have Stahn speak for their club, PTA or other group, arrangements can be made by calling Mill Run publicist Gilda Mead at 298-5055.

"Mr. Harriman say, if we stop infiltrating, they stop bombing--then we get bats and balls and have a REAL WORLD SERIES!"

# HOME BUYER'S GUIDE

Friday, September 27, 1968

Page 11

The new collection includes "Fountain" with big bright flowers on a textured background. The color combinations are orange, yellow and green on beige; tan, green, light and dark pink on white and orange, yellow and green on white.

Included in the Don Plaster Floral collection is "Woodley," a children's playroom adaptation. It comes in pink, orange and green on white; dark blue and green on white; and tan, yellow and green on white.

"Zinnia" give a three dimensional effect to walls. The pattern has four color selections, all with white backgrounds. There's one with yellow, orange, beige and green flowers; one with purple, violet, green, tan and cream; one with pink, green, yellow and green; and still another with greens, blue and aqua.

## Vinyl Wallcovering Themes Varied

In the past few years, homemakers have discovered that wall coverings can do more than furnish or accentuate to set color or establish a decor.

The new theatrical collection of fabric-backed vinyl wallcoverings, being introduced by United-Desco, of Des Moines, tries to cash in on this idea.

Included are patterns with colors that range from muted red tones to the fluorescent.

Of the 147 new patterns, 20 have the new "wet" look, 30 are floated. There is a tortoise shell, a simulated marble, a spiraling children's toy adaptation, and a whole garden of floral selection.

Moving away from the traditional vinyl kitchen and bathroom patterns, the collection includes a marbled pattern called "Fountain," which is an artistic collection of Americana with "reducer" and colorful in various scenes.

"Fountain" has a textured white background, with the figures in their natural colors.

If your home decor calls for a look of luxury, you should see the phobias of the "Spirity" pattern. With an embossed silk appearance, and four solid color choices, this wallcovering makes a wall look like Fort Knox is just behind it.

A simulated pattern covers gives a textured touch to a family room or den. Called "Tiger Look Weavers," this pattern is

available in five different colors — avocado, white, beige, orange and yellow — with any of the five making good combinations with another.

Then, there's "Floralist" with giant gold, yellow and green floated flowers on a milky-white wet look background.

All these designs have long life vinyl colors on vinyl grounds. They are especially resistant to stains and wear.

## What's Behind the SIGN?

A HOME, AN INVESTMENT, A FUTURE

BOB KOLE REAL ESTATE LTD. stands ready to help you at a home that's overpriced. It bases its pricing on the "Comparative Market Analysis" — the most accurate approach. BOB KOLE REAL ESTATE LTD. maintains its own listing service. Subscribers to the service list their homes and the service lists them for you. No fee or any other lead source. Broker or not, call for a free copy of the "Buyer's Guide" or for a free copy of the "Seller's Guide" or for a free copy of the "Service from Home Office."

More than 8,000 Realtors and their guests are to gather in New York in early November for the 61st annual convention of the National Association of Real Estate Boards.

Headquarters for the meeting will be the Americana and New York Hilton hotels.

The meeting of NAREB, one of the largest trade and professional organizations in the country, will open officially on Nov. 8 and the final activity will be held on the evening of Nov. 14.

IN THE interim, literally hundreds of open sessions, roundtable discussions, panel programs, committees meetings, and other functions will be conducted by the association and its nine affiliated institutes exploring all aspects of real estate.

NAREB President Lya E. Davis of Dallas will preside at the convention, and he will deliver a major address at the first general session of the convention on Nov. 12.

Speaking at the same general session will be Dr.

Norbert Vincent Pease, author of the book, "The Power of Positive Thinking," and minister of the Marble Collegiate Church, New York.

personality who will appear at session of the convention are McGee Bandy, president of the Ford Foundation, Lily Carline, TV panelist and actress, Paul Harvey, nationally-known radio commentator; many government officials, including Assistant Secretary of Housing and Urban Development Philip N. Brownstein, and experts from various phases of industry.

One of the highlights of the annual meeting will be the election of new officers of the 85,000-member organization.

The NAREB nominating committee's report will be released Nov. 13, with the delegate body to vote the next day.

The new officers will be installed at the association's midwinter meeting in February in Washington, D.C.

The agenda for the general session will center on the association's new "Make America Better" program,

launched early this year to help solve the major problems of the nation's cities and towns.

The program is based on a 49-proposal undertaking to achieve seven goals.

The Nov. 13 session will be moderated by L. Allen Morris, Miami, chairman of the MAB Committee, and will include discussions of outstanding examples of MAB activities by representatives of boards of Realtors which have taken a leading part in the

new civic action program.

THE NINE affiliated organizations which will be meeting at the same time as the National Association, with their presidents presiding over their sessions, are:

American Society of Real Estate Counselors, Joseph C. Rattiner, Boston, president; American Institute of Real Estate Appraisers, Laurence Bendo, Los Angeles, president; Institute of Real Estate Management, William C. Haas, Kansas City, Mo., president; National Institute

of Real Estate Brokers, J. A. Zell, Chicago, president; National Institute of Farm and Land Realtors, Quentin W. Williams, Farmington, Tenn., president; National Industrial Realtors, J. E. Tideman Jr., Chicago, president; Executive Office of Louisville, Louisville, president; American Chapter, International Real Estate Fellowship, Daniel F. Sherman, New York, president; National Women's Council, Mrs. Gerta, Dallas, president.

LOVE MAKES THE WORLD GO AROUND. As a symbol of the younger generation in the front point for an Afghan design. Built one for the college crowd. A great addition to any "pad," the instructions are free if you write to the National Hand Knitting Yarn Association, 15 East 26th Street, New York 10010, Room 1966A enclosing a self-addressed stamped envelope. Ask for pattern KJA 68-3. This Afghan is a easy friend to make in its soft warm colors of woolly wool. The simple stockinette stitch can be done by all sorts of students bound for an "A" in decorative know-how.

## OUTSTANDING COLONIALS

# Stapling's Easier Than Hammering

One of the great workhorses is the stapler.

This super-tool is like a hammer that supplies its own nail, holds it in place for you and drives it.

For muniting, nailing jobs, a stapler can cut down the required time to just a fraction of that which would be required using a regular hammer.

CONSIDER using stapler for such jobs as fastening down roofing, putting new

screening on frames, putting up ceiling tile. If you think you might have no further use for a stapler other than the one job, then rent one.

The stapler may look small but they have amazing holding power.

Don't forget that there are two points, not one, being driven in. The broad, flat head adds to their holding power and, in the case of materials that tear easily, nothing will do quite as well.

Not all staplers are the same. There are three basic stapling tools. Pick the one that suits you best.

The staple gun is the one most used around the shop. Squeeze the handle and you compress a spring that trips the staple free and drives it in.

At the same time, it's a handy stapler that has been around for years. For shop use they've made them sturdier and more powerful. This type of stapler has gone with the work going in between, good for fastening thin materials

together. Instead of the staple going straight in, it is crimped on the other side of the material. Again, because of a powerful spring, a light squeeze is converted into greater force. Because it drives a double staple, it is not good for nailing jobs.

The PLAIN stapler is a little like the office and hand stapler that has been around for years. For shop use they've made them sturdier and more powerful. This type of stapler has gone with the work going in between, good for fastening thin materials

together. Instead of the staple going straight in, it is crimped on the other side of the material. Again, because of a powerful spring, a light squeeze is converted into greater force. Because it drives a double staple, it is not good for nailing jobs.

The hammer stapler is great for fast locking jobs and it works just the way its name implies. You swing it like a hammer and when it meets a

surface it triggers a staple and the weight of the head at the same time. This is less accurate than the gun but it is faster because you can operate it as fast as you can swing it. Use it on big jobs—insulation, reroofing and the like.

Prices for staplers vary greatly. In recent years there have been cheap ones put on the market but their use is limited. They look like the real thing but power, capacity

and versatility are limited. GET A "FOOL" that will handle a variety of sizes of staples. One size staple will not do for all. The tool should take plenty of staples at a single loading. It should have the power to drive the staple in flush with the surface of the work. Get a stapler that is not limited to one manufacturer's staples. There are a number of staples on the market and at one time or another you may want to try them all.

DESIGNED FOR TEENS and young adults is this creation by American of Martinsville, "Fiesta" is a handsome-style kitchen in cast-iron-steel finish. Bold, active motifs on wall

units, warm earth tones of walls and floor, pottery and paper match accessories, and beaded rug and Indian wares bedazzle capture the "folk-art" feeling of Old Mexico.

## Baird & Warner Offers RESET

Finding a home in Chicagoland can be a lengthy, tiresome and expensive job ... especially for the out-of-towner transferred here by his company. But it doesn't have to be - with RESET - Baird & Warner's Real Estate Service for Employee Transfers.

RESET offers guidance to out-of-towners by directing them to only those areas - city or suburban - which best meet their requirements for cost, location and transportation. Detailed information on schools, recreation facilities, shopping, etc. in over 45 communities helps the home seeker to determine quickly where he wants to live.

When the actual search begins, Baird & Warner again gives something special in the way of service. Tours of the communities that interest the transferred employee are conducted by a local Baird & Warner expert. The transferred employee will see almost limitless examples of homes in every price range, size and architectural design.

For the transferred employee, RESET means big savings in time, energy and effort. For the employee's company, RESET means a happier transferred employee who is able to get down to the business of establishing himself more quickly in a new position.

Because of referrals and consistent advertising. When you list with us, 178 professionals are working for you in 25 branch offices covering Metropolitan Chicago.

*A Baird & Warner Office is just a few minutes away from you right now!*

# BAIRD & WARNER

A TRADITION IN REAL ESTATE SINCE 1855

# Check Notes When House Hunting

Keep up with the Joneses in one detail: when you buy a house.

Take along a notebook when you go househunting.

Have a list of the new extra items which are being pro-

vided by up-to-date builders. Check off whether they are in the house you are inspecting.

A few items for you to jot down now in that notebook now: aluminum

siding, which will save endless hours in repainting and is a real investment, dollar-for-dollar.

Plumbing including the water lines, roof drainage of heavier weight; and how about vinyl asbestos instead of

traditional wood which demands attention every few years?

Obvious "hidden" areas such as insulation in the eaves or the attic should be brought into the picture, too.

Extra insulation in those locations can reduce heating costs greatly.

How about vinyl or vinyl-asbestos flooring in the kitchen, living room and bedrooms?

The most single important item to you is the way a house is built. In your notebook, don't omit the wood storage. No matter how you classify it, as a closet or shelving or attic space, it's the one big item that a buyer must reduce to understandable working dimensions.

If you've seen something useful and the "how" thing when you were visiting with the Joneses lately, check it out before you put it in your little notebook.

What seems like a smart idea may prove to be a temporary fad. And what seems like a fad may produce a splendid time-saver in your own household.

**Avoid Hurt: 'Police' Stairs**

Home is still the place where the most hurt happens. Check off your own list of accident hazards and ask yourself what you can do to reduce the chance of costly injuries to yourself and your family.

One of the most often used areas in your house is the kitchen, and stairs.

Besides regular inspections to make sure that there are no protruding nails, islets, or coverings which are too slippery or polished, there is one simple rule every parent can insist on to prevent or reduce stairway accidents.

This is to make each member of the family responsible for "polishing" the stairs. Each person in the household, even temporary guests, should be urged to remove at once all misplaced objects such as toys, books, tools, games, and to report any such condition to the householder.

Check off, too, the condition of stairs, shaky handrails, and so on.

Bringing the outdoors inside is a thought that if you use a common wall of slatted panels to easily this family room and patio garden into an appealing, natural combination. Slatted panels enhance the interior design and at the same time to divide the space into two areas from the garden show the adaptability of the low-profile, long-lasting material. The householder planning to improve his home by using the long-life, durable cedar slatted panels and obtaining full details of the many applications of red cedar slatted panels, writing to Red Cedar Shingle and Shakes Bureau, 941 White House Street, Bldg., Seattle, Wash. 98101.

## Housing Still Booms

Construction in the Chicago Metropolitan area continues to boom as the demand for housing remains according to Bids V. Ransom, President of Ransom & Sons Associates, Inc. "Permit for new housing units issued in the Chicago Metropolitan area during the first eight months of 1968 was at the highest level since 1955, the best housing year for the area in the entire postwar period," he said.

"Total housing starts in the Chicago Metropolitan area in the first eight months of 1968 were 36,200, compared with 27,125 in 1967 and 36,738 in 1955."

Permits issued for the first eight months of 1968 were 36,200, compared with 27,125 in 1967 and 36,738 in 1955.

## Softer Saves Cash and Work

Hard water can be tough on your pocketbook as well as your fixtures and clothing.

It also results in higher water bills for the utilities.

Laundry or just general housework. More hot water to get rid of loosened dirt.

Linens, clothing, towels, which have to be laundered repeatedly to get the dirt out just do not last as long as when "soft" water is used.

Hard water also leaves a sticky deposit in pipes and water-using equipment, causing greater replacement of such items, and piling up householder repair bills.

The solution, according to most plumbing and heating contractors, is to install an automatic softener before the water enters the piping system.

Usually this arrangement provides for the water to flow through a tank containing the chemical that removes the hardening materials.

Because of their durability and good appearance, automatic softeners are the primary requirements of the water softener. These units are ideal for the home, especially on a home, providing all the water used in the house is softened.

One popular style has stripes of sliding either smooth or textured—interwoven about the vertical fence supports. This fence provides complete privacy but permits a flow of air.

Textured sliding such as Rux-X has a rustic appearance but permits a flow of air. The Rux-X is made in both stripe and smooth styles. The stripe style may be achieved.

A REX-X model using

## CHICAGO METROPOLITAN AREA FIRST EIGHT MONTHS HOUSING PERMITS

	HOUSES	APTS.	TOTAL
1955	32,278	4,460	36,738
1956	28,761	5,802	34,563
1957	21,638	6,561	28,199
1958	19,140	5,620	24,760
1959	12,773	9,128	35,901
1960	18,802	9,847	28,649
1961	17,338	14,843	32,141
1962	15,523	15,409	30,932
1963	13,468	12,196	25,664
1964	13,507	12,546	26,053
1965	13,945	12,219	26,164
1966	13,162	13,378	26,540
1967	14,091	15,530	29,621
1968	16,108	20,101	36,209

ALTHOUGH the number of houses in 1968 is comparable to 1955, the housing picture has changed dramatically since 1961, according to Ransom.

In 1955, eight single family home permits were issued in every one apartment unit.

While today apartment units represent more than half of the housing units for which permits are issued.

Apartment units are not the problem level ever reported in the postwar period, and are continuing to rise rapidly.

In 1968, eight single family home permits were issued for the first eight months of 1968, compared with 15,530 in 1967 and 12,778 in 1955.

ALTHOUGH permits for single family homes are at the highest level since 1961, they have reached only half the level of 1955.

In 1955, eight single family home permits were issued for the first eight months of 1968, compared with 15,530 in 1967 and 12,778 in 1955.

Here's A Smart And Private Fence

Privacy, protection and attractiveness are the primary requirements of the water softener. These units are ideal for the home, especially on a home, providing all the water used in the house is softened.

One popular style has stripes of sliding either smooth or textured—interwoven about the vertical fence supports. This fence provides complete privacy but permits a flow of air.

Textured sliding such as Rux-X has a rustic appearance but permits a flow of air. The Rux-X is made in both stripe and smooth styles. The stripe style may be achieved.

## WHERE IN THE WORLD

## Welcome to our new, exclusive 1/10% Mortgage Interest Rate

We've broken with the traditional 1/4% increments for variations in home loan interest rates. Our new 1/10%, progressive rate structure will provide a new flexibility to assure home buyers of the most equitable rate at all times. And it can provide considerable savings over the term of a mortgage depending upon the original down payment. It's just another example of

Bell Savings' constant effort to make home ownership easier and more enjoyable. Bell is known for making the best possible commitment on the best possible terms. With careful attention to the details that can reduce the immediate cash outlay for home buyers. And offering such items as pre-payment privileges and open end provisions tailored to your needs.

# Battery-Operated Clocks

## Just the Tick-et for Walls

Not too long ago, an inspiring inventor manufactured a clock mechanism that would run on a battery and

presto-fantastic home decorators were supplied with attractive new wall decorations. They found that the

battery-operated wall clocks not only provided them with the accurate time without the dangling, how-can-it-hold-out the clocks provided a variety of interesting and artful

The "look" in decorative battery-operated wall clocks can be seen in the over 60 models manufactured by the Waltham Clock Company, the company that has been famous for so many years for its fine watches and jewelry.

WITH AN eye toward contemporary taste, designers have come up with brand new ideas and refreshing variations on the ordinary clock wall clocks. The clocks in-

clude styles for every taste and room in the home. There's even a wall clock and towel ring ensemble for the bath or dressing room. Call "Dobele" the Plymouth inspired clock has combinations of brightly polished and satin-finished brass with a dolphin motif and matching towel ring, with staid, dignified holders.

FOR TRAIL explore look "Brenwood" should suit your fancy. It has a vertical rectangle in shape with gracefully curved, hand-painted enamel, stained wood veneer sides and polished brass finish. "Brenwood" even has an automatic clock that will show you the date as well as the

"Walthams" is ideal for homes with an early American decor. An ideal door or living room timepiece, the clock has a 7 1/2 inch dial with decorative Roman numerals and ornate hands. It has an ornate gold finish created with a patinated federal eagle and is accented by a scon

Many of the Waltham wall clocks come with matching sconces and are made in design-conscious to provide years and years of reliable time-keeping. The versatile, popular-priced wall clocks are nationally distributed at department stores, jewelry, drug and variety stores.

## Be Prepared Before You Try To Buy Paint

Don't stand befuddled in the paint store wondering just how much paint you should buy for the job you're set to do. Do a little very simple arithmetic and be prepared before you purchase.

While the label on a can usually tells you how many square feet a gallon will cover, you can make things very

for GUTTERS and DOWNSPUTS, measure their length and consider the total as no many square feet. Normally, finish coats of house paint can be applied to about 300 square feet of surface to the gallon. If you're obliged to paint on

hard wood, you'll need a primer first, which averages 450 square feet to a gallon. FOR WALLS, multiply the length of each wall by the height from foundation to eaves. Add the figures for the four sides of each room and you have the square feet to be covered. Do the same for outside walls. Allow one can of paint for windows or doors. Allow one can of paint for baseboards, and so on.

A standard window sash and frame usually add to 35 square feet. Multiply this by the number of windows you want to paint and you'll find out how many gallons you'll have to buy. Be sure to buy a little more than you'll use. Better to end up with that extra paint than with scraps the paint can bottom with paintage left to go then to patch patches.

Shows competing negotiations for the consolidation of Chandler & Montague with Baird & Warner are (left to right) Walter John L. Hall, Baird & Warner's main vice-president and general sales manager; Warren Karm, president of Chandler & Montague; and Chandler's main vice-president of Baird & Warner; Main office, standing left to right: Trade Karm and Walter Karm, president of Chandler & Montague.

## Two Veteran Firms In Consolidation

Two veteran Chicago real estate firms have consolidated. As of October 1, Chandler & Montague, founded in 1885, will affiliate with Baird & Warner, Inc., which

has been serving real estate clients since 1855. The acquisition of Chandler & Montague, specialists in industrial real estate, will further broaden that type of service for clients, according to John W. Baird, president of Baird & Warner.

WALTON P. BRENNER, who became associated with Chandler & Montague in 1932 and who has served as the firm's president since 1935, will join Baird & Warner as its assistant vice-president. He is a member of the Chicago Association of Real Estate Brokers and a member of the City of Chicago.

In addition, his associates, Walter Karm and William Brenner, also will be associated with Baird & Warner. Karm has been at the firm since 1932 and has served as its vice-president since 1935. He is a member of the Chicago Association of Real Estate Brokers and a member of the City of Chicago.

Walter Karm, who has been at the firm since 1932 and has served as its vice-president since 1935, will join Baird & Warner as its assistant vice-president. He is a member of the Chicago Association of Real Estate Brokers and a member of the City of Chicago.

Walter Karm, who has been at the firm since 1932 and has served as its vice-president since 1935, will join Baird & Warner as its assistant vice-president. He is a member of the Chicago Association of Real Estate Brokers and a member of the City of Chicago.
